

TI Track & Field Team 2020 Virtual Corporate Track Meet Results

We started practice in February and made it to early March before COVID-19 shut everything down. The Houston Regional Meet and the Maine Meet were cancelled and it looked like no track for 2020. Then, the Corporate Track Association decided to offer a virtual track meet. One person, Jovette Jolicoeur, with Exxon/Mobil did almost all the work setting up the meet and reviewing every single entry. They added individual races scored by 5 year age groups and assembled 12 virtual relays. They also widened the rules to include spouses and adults kids. We ended up with 74 members signing up for the TI Team. Those 74 members signed up for 384 events. Here are the final participation stats:

2020 TI Team Stats - Participants

- TI Track & Field Team members= 58 (41 males, 17 females)
- Average age = 45.1 (youngest = 21; oldest = 80)
- Employees=34; Retirees=15; Alumni=5; Spouses=2; Adult Children=2

The event submission period ran from Jun 15 – Jul 31. We held a number of time trials on Saturday mornings at Plano Senior High. As usual, many waited until the final week, but we ended up with 248 posted events. **And before I get too deep into details and being competitive let me just say this: It was so good to connect with so many team members. It was great to meet many of you at the track and run together (and time and video). With the unusual year we are having it was great to have some semblance of normalcy and old times. Something to strategize and work toward. I needed this. I suspect many of you did as well. Thank you all.**

For the individual events we had some outstanding performances. Here are this year's awards:

World Class Award: Jim Dietz. Only one member hit a WMA of 90. That's world class. Jim, at age 60, ran 8 events and his lowest WMA was 79.2. All the rest were in the upper 80's. He won every event he entered for 80 team points. He also volunteered to pace several other runners on Sat mornings. A class act – a world class act.

Fierce Competitor Award: Terry Gonzalez. This could go to several people, but Terry did 10 events. In the final week she noticed someone in her AG on another team had posted better times, so Terry ran a few events again and bettered her times to take the lead. She did that battling bursitis. She said "ouch" a lot, but never gave up.

Run (from) the Farthest: Viola Schafer (Freising, GER), Stefan Herzer (Freising, GER), and Leonardo Pierre (Warsaw, POL). Viola used to come over for the national meets many years ago, but hasn't been able to compete with us for a while. She was even coming back from a broken foot earlier this year. She recruited Stefan to join us and they were both big contributors to the team. Leonardo was running in a forest in Warsaw - literally.

Iron Man Award: Wally Capps. Decathletes are often called the greatest athletes in the world. Decathletes compete in 10 events. Add four more events and you get a quattuordecathlete. The oldest member of the team, at age 80, is the only person who competed all 14 events. He had a WMA score in most from the mid 60's to the low 70's. He placed 1st in 13 of the 14 events and scored 138 points – 32 points more than any other person in the entire competition.

Iron Woman Award: Heidi McCauley competed in 11 events – one more than a decathlon. She won 5 of the events and scored 94 points – the third highest female point total of anyone in the entire competition.

Decathlete Honorable Mentions to the others who did at least 10 events: Leonardo Pierre, Manny Murret, Rio King, and Terry Gonzalez.

Rookie of the Year (Male): Manny Murret did 10 events and just kept getting better. He culminated by running a 5:00 mile to be one of our top 2 milers. Great progress.

Rookie of the Year (Female): Julie Rembold is a former TI employee and the spouse of a current TI employee, but the national rules didn't allow her to run with us, until now. She dominated 5 of the 6 events she ran.

Points Perfection: People who entered at least 3 events and won them all were: Viola Schaffer (5), Jim Dietz (8), & Jason Green (3).

Sprinter Triple Crown Winner: Jason Green entered 3 events and won all three for 30 points. He won the sprinters triple crown – 100, 200, 400.

Win, Win, Win Again: Quite a few had at least (5) 1st place finishes in various events: Heidi McCauley, Terry Gonzalez, Sheri Phillips, Julie Rembold, Viola Schaffer, Wally Capps, and Jim Dietz.

Individual Points – TI Team

Here's a table sorted by F/M and **points scored**. (Points: 1st=10, 2nd=8; 3rd=7, 4th=6, 5th=5, 6th=4, 7th=3, 8th=2, 9th and lower = 1). Quite impressive:

Videos – Videos of many events, shot by Paul at the track, have been posted here: <https://app.box.com/s/tdcfjglwkwf0kbt66q7ic6c1w9d0fju2d>

Here are the individual point standings for all teams:

TI did well in points per person and very well in points per event. Had we fielded another 15-20 people and a few existing members entered more events we would have been right there with GE and AT&T for overall individual points lead. We did very well considering our corporate size. And one more interesting slice – TI won more 1st places than any company with 74 – just ahead of AT&T with 72 and well ahead of GE with 53:

INDIVIDUAL	3RRR	AERO	AT&T	BP	EM	GE	NG	TI	Total

This was the first year for this virtual event and we all learned a lot. If it repeats next year there will be a corporate track group looking at rule updates and clarifications to make it even better.

Virtual Relay Teams

There were 12 virtual relay teams that we filled with our individual performances. Each person/event could only be used in one. From the announcement of this event my goal was to try and win the relay events. I was filling out matrixes before many people even signed up. I chased down people to fill gaps and pestered people to join the team – then get out to the track.

My method for optimizing our scores was roughly this: 1. Pivot table all our data and start filling events with the best available athlete. Some are easy as there is only one event or age group, but many have multiple options (example: put that fast 50+ M 400m in the Senior's or the 4x400?). Then the 4x400 allows the female to be any leg, which opens up a number of possible combinations. 2. I looked to past results of similar events to make a few juggles. 3. Then, when all the data was available I looked at the other teams data and options – then I looped through and optimized all of our teams again. I had to make guesses on what other teams would do. All the athletes and teams leads to almost countless possibilities. For the W800 and W Relay I matrixed all possible outcomes and went with the team lineup that had the best probability for the most team points. Then everyone sent in their relay teams. Here's how all 12 ended up:

4x100 (3rd)

4x100 with one open age female and three males (open, 40+, 50+). This one is fairly easy to seed. Just take the fastest 100m times for each position. We had a solid team and finished 3rd.

2020 Event	Dist	Typical Sex	AG	Sex	12/31 Age	Name	Data	Event	Team	Time	Place	Points
4 x 100 Relay	100	F	Open	F	24	Phoebe Wong	0:14.70	4x100	AT&T	49.25	1	40
4 x 100 Relay	100	M	50+	M	55	Claude Cirba	0:14.06	4x100	GE	51.62	2	34
4 x 100 Relay	100	M	40+	M	43	Jason Green	0:12.36	4x100	TI	52.81	3	31

4 x 100 Relay	100	M	Open	M	22	Benjamin Batooshingh	0:11.69	4x100	BP	01:04.9	6	22
Total-4 x 100 Relay							0:52.81	4x100	3RRR	01:11.0	7	19

4x200 (3rd)

4x200 with one open age female and three males (open, 40+, 50+). The first pass seeding takes the fastest from the eligible groups – but there are 200's in other events, so you have to come back and balance it. We ran almost the same team as the 4x100 and the result was the same – 3rd.

2020 Event	Dist	Typical Sex	AG	Sex	12/31 Age	Name	Data	Event	Team	Time	Place	Points
4 x 200 Relay	200	F	Open	F	24	Phoebe Wong	0:33.48	4x200	AT&T	01:41.9	1	40
4 x 200 Relay	200	M	50+	M	51	Steve Boedeker	0:27.28	4x200	GE	01:43.4	2	34

4 x 200 Relay	200	M	Open	M	22	Benjamin Batooshingh	0:23.91	4x200	Aero	02:26.9	4	28
Total-4 x 200 Relay							1:50.70	4x200	3RRR	02:30.7	5	25

4x400 (1st)

4x400 with four legs (open, 40+, 50+, 60+). The female leg is not specified in this one – she can count for any of the age group legs. We used this to our advantage by using 40+ Julie's excellent leg, which allowed us to get a better overall time and save Jason's excellent 40+ male 400m for a different event. Other teams tried this, but Julie was such a difference maker that we won by 19 seconds! And it was great to have Alex back out running with us this year.

2020 Event	Dist	Typical Sex	AG	Sex	12/31 Age	Name	Data	Event	Team	Time	Place	Points
4 x 400 Relay	400	F	Op/40/50/60	M	29	Alex Wang	0:55.26	4x400	TI	04:12.3	1	40

4 x 400 Relay	400	M	40+/open	F	40	Julie Rembold	1:07.18	4x400	Exxon	04:49.6	4	28
Total-4 x 400 Relay							4:12.26	4x400	Aero	04:52.6	5	25

Executive Relay (1st)

This race is for managers of managers or certain level technical staff members. We were a bit blind on this because I didn't know who the execs were from the other teams, but we had a solid team that won easily on the strength of our team members from Germany - Stefan and Viola.

2020 Event	Dist	Typical Sex	AG	Sex	12/31 Age	Name	Data	Event	Team	Time	Place	Points
Executive Relay	800	M	30+	M	39	Stefan Herzer	2:16.10	Exec Relay	TI	04:35.7	1	40

Total-Executive Relay							4:35.74	Exec Relay	Exxon	6:20	5	25

Master's Plus Relay (1st)

We had a very solid team and I thought we had this one, and we did – 1st place. Dietz ran a great 800 and David Canon was battling injuries and came through with several great runs in the final week. Jason won his AG triple crown of sprinting. Then Julie was our fastest female 200 of any age. Finally, captain Claude brought home the solid win.

2020 Event	Dist	Typical Sex	AG	Sex	12/31 Age	Name	Data
Masters Plus Relay	800	M	40/50	M	60	Jim Dietz	2:23.42

Masters+ Relay	Aero	08:11.7	4	28
Masters+ Relay	Exxon	08:14.9	5	25

Senior's Relay (1st *)

I loaded this one because we have a lot of talent in the older age groups. It looked like we won it until the final hours of submission when some questionable times came in from other teams. One person ran in a parking lot with no video and magically ran 2 seconds faster than he did on a track the previous year. AT&T was ahead by just 0.57 seconds and the AT&T captain agreed we should call it a tie. So, another 1st place – a tie between two strong teams. And I'll note that Steve's first 400 time was much slower, but he went back out and had his son pace him and turned in this great time.

2020 Event	Dist	Typical Sex	AG	Sex	12/31 Age	Name	Data
Senior's Relay	200	M	60+	M	60	Paul Westbrook	0:28.76

Submaster's Sprint (3rd)

We had a good team and if I would have known who the execs were from other teams I could have used Stefan's 800 here without dropping in the Exec to propel us up to 2nd. Angela and Anthony came out late, but gave us times that allowed us to enter and do well. Steve was much older than many in this event and was still very competitive.

2020 Event	Dist	Typical Sex	AG	Sex	12/31 Age	Name	Data

3-Lap Sprint (2nd)

At one point I had Alex and Benjamin on the 400's – which is logical, but I realized that moving Alex to the 4x400 upgraded that significantly and rolling Manny's 400 in here allowed me to use Alex's excellent 200 here. When I looked there was no combo that put us in first, but those changes would just barely keep us in 2nd while cushioning other events. It worked. Jennifer Jordan and Kevin Waddles were new to the team and both came out often and worked hard. Their work paid off and I'm glad to have two excellent new team members.

Distance Relay (2nd)

We had a good team here anchored by Will's awesome 1600 leg. And Dietz more than met the requirement to have one age 40+ runner with his great 1200 leg. Then there is Becky running competitively in an open age race. And welcome to rookie Tyler Couvrette running out in California.

Women's Relay (1st)

These two Women's events required the most detailed analysis to place the right people in the right event. The big question was which one to use the great 800 from Julie. In the end the analysis gave a slightly higher points probability to using her in the Women's Relay. It paid off big time with a 1st place victory.

2020 Event	Dist	Typical Sex	AG	Sex	12/31 Age	Name	Data					
Women's Relay	800	F	Add90	F	40	Julie Rembold	2:31.74	Women's Relay	TI	05:04.4	1	40
Women's Relay	400	F	Add90	F	24	Jennifer Jordan	1:18.46	Women's Relay	AT&T	05:14.6	2	34
Women's Relay	400	F	Add90	F	39	Sara Hames	1:14.18	Women's Relay	BP	05:25.0	3	31
Women's Relay								Women's Relay	GE	05:36.9	4	28
Total-Women's Relay					103	<sum must total 90 or more	5:04.38	Women's Relay	Aero	07:07.9	5	25

Women's 800 Team Race (3rd)

Had I swapped one 800 leg with the Women's Relay we could have taken 2nd, but would have taken 2nd in the Women's Relay too. Big thanks to two great athletes competing in an open age group race.

2020 Event	Dist	Typical Sex	AG	Sex	12/31 Age	Name	Data					
Women's 800 Team	800	F	Open	F	46	Vida Schaffer	2:45.90	Women's 800 Team	AT&T	05:07.7	1	40
Women's 800 Team	800	F	Open	F	43	Becky Angeles	2:45.70	Women's 800 Team	GE	05:25.1	2	34
Total-Women's 800 Team							5:31.60	Women's 800 Team	TI	05:31.6	3	31
								Women's 800 Team	Aero	05:39.2	4	28
								Women's 800 Team	Exxon	06:06.8	5	25
								Women's 800 Team	BP	07:14.8	6	22
								Women's 800 Team	3RRR	07:51.4	7	19

Men's Mile (5th)

The upside surprise of the year was Manny running a 5:00 mile. Pairing that with Will's excellent time edged out BP for 2nd place:

2020 Event	Dist	Typical Sex	AG	Sex	12/31 Age	Name	Data					
Men's Mile Team	mile	M	Open	M	28	Will Luppino	4:45.34	Men's Mile Team	GE	09:21.9	1	40
Men's Mile Team	mile	M	Open	M	41	Manny Muret	5:00.00	Men's Mile Team	TI	09:45.3	2	34
Total-Men's Mile Team							9:45.34	Men's Mile Team	BP	09:47.6	3	31
								Men's Mile Team	Exxon	10:08.8	4	28
								Men's Mile Team	AT&T	11:07	5	25
								Men's Mile Team	Aero	11:07.7	6	22
								Men's Mile Team	NG	11:16	7	19

Virtual Relay and Overall Results

If you consider the virtual relay scores as the actual track meet (ignore individual volume points), then look who won with 426 points (420 if you don't count the Senior's Relay tie) – **Texas Instruments**. This was my goal and we prevailed in this first virtual relay meet.

RELAY TEAMS	TI	AT&T	GE	AERO	BP	EM	3RRR	NG	Total
Relay Points	426	396	389	312	233	231	85	19	2091
Relay Place	1	2	3	4	5	6	7	8	

We entered every event and didn't finish worse than 3rd (no other team did that). We had the most 1st place finishes with 5 (counting the Senior's Relay tie).

PLACE FINISHES BY EVENT

Row Labels	3RRR	Aero	AT&T	BP	Exxon	GE	NG	TI	Grand Total
3 Lap		6	4	3	5	1		2	6
4x100	7	5	1	6	4	2		3	7
4x200	5	4	1			2		3	5
4x400		5	3		4	2		1	5
Dist Relay		4	5	3	6	1		2	6
Exec Relay		4	2	3	5			1	5
Masters+ Relay		4	3		5	2		1	5
Men's Mile Team		6	5	3	4	1	7	2	7
Senior's Relay		4	1		5	3		1	5
Submaster Sprint	6	5	4	2		1		3	6
Women's 800 Team	7	4	1	6	5	2		3	7
Women's Relay		5	2	3		4		1	5

Here's the table with individual and relay combined. AT&T edged GE for most points, with TI in 3rd:

RELAY TEAMS	TI	AT&T	GE	AERO	BP	EM	3RRR	NG	Total
Relay Points	426	396	389	312	233	231	85	19	2091
Relay Place	1	2	3	4	5	6	7	8	
INDIVIDUAL	TI	AT&T	GE	AERO	BP	EM	3RRR	NG	Total
Individual Points	1684	2123	2111	820	506	643	194	128	8209
People	58	73	70	30	20	29	5	9	294
Points/Person	29.0	29.1	30.2	27.3	25.3	22.2	38.8	14.2	27.9
Events	248	345	378	184	80	111	28	28	1402
Events/Person	4.3	4.7	5.4	6.1	4.0	3.8	5.6	3.1	4.8
COMBINED	TI	AT&T	GE	AERO	BP	EM	3RRR	NG	Total
Total Points	2110	2519	2500	1132	739	874	279	147	10300
Total Place	3	1	2	4	6	5	7	8	

Thanks

Everyone and every point counted. I was glad to have something to work toward and many of you seemed to share that sentiment. If they do this again, we should really increase our participation. Whatever the result of the scores, the result of the meet was the same. We had a wonderful group of people who all performed exceptionally well. Everyone on our team was a great competitor and exactly the type of person I want to have as a teammate.

Thank you to those who work to make this all happen: Captain Claude Cirba and the timeless Coach Rio King. Rio has been doing this every year since 1979. I started with the team in 1983. I love this team and what it represents – people selflessly working together for a common goal.

The official results are posted here:
